Reference your ALP/SH 57 of 27th November.

- A. Few S.D. myths still active. VAR/3588 para G refers.
- B. Probably that unless all are notional, at least one of three myths referred to by Nebel is now controlled by us.
- C. Believe therefore that every effort should be made to extract names of these W/T operators from Martin before risking step proposed by your para 3.
- D. If identity can be established through MARTIN controlled agent can then be used to further exploit NEBEL.
